# Solano Stroll

## Looks Like Never Before!

On a beautiful, warm Sunday in September, people from Albany and Berkeley came to Solano Avenue. They spent their day strolling, eating, laughing, and dancing in the street. The occasion? Solano Stroll, of

course. Every year this festivity takes place in honor of our very unique Solano Avenue. At the Stroll, there were a variety of things to do, from listening to every type of music to munching on many different kinds of

food. Solano Stroll was terrific this year, "like never before."

# THE INFORMER

## The Inside Scoop

The *Informer* is a newspaper published three times a semester. This paper used to be called plainly, *AHS News*. It was then changed to the *Grimalkin*, which means fat, lazy cat. In 1971, Mrs. Connie Woulf came to Albany High and held a contest to rename the school newspaper. A Jonathan Michael won the contest with the new name of *The Informer*. Mrs. Woulf has been the advisor of the paper since she came to teach at AHS, and this year she is in charge since there is no student editor-in-chief. There are four student editors on the staff, who each have reporters working under them.

Before starting each issue, the *Informer* staff brainstorms for ideas that they want in the next issue. Then the editors decide which articles they want to pursue, and the reporters go out and write!

The AHS Print class, under the supervision of Mr. John Thomsen, prints each issue of the paper. The front page has all the feature articles on it. The news is printed in the middle spread, and the back spread is used for sports.

The *Informer* staff meets as Journalism class first period for English credit. The class works hard, but is rewarded, celebrating the meeting of their deadlines and seeing their own words in print!

### Study and Snooze

Teachers rant, rave and roar,  
Students yawn, stare and snore.  
Getting homework that is much too long;  
We know our answers will be all wrong.  
Ah well, that's life;  
Filled with academic strife.  
Don't worry, never fear;  
For the end is growing near.  
One or two years, maybe more;  
Then we are all out the door.  
"Those were the days" we are going to say;  
When we are old, senile, and gray.  
But for now, the teachers rule;  
At good old ALBANY HIGH SCHOOL.

## HOMECOMING WEEK

Homecoming week was filled with many spirited smiles. On Monday, students were seen wearing their pajamas, for pajama day. During break, Mike Parham won the President's Eating Contest. On Tuesday our school was full of nerds and jocks. At lunch the cheerleaders turned into football players, and the football players were cheerleaders for the exchange rally. Wednesday was full of students from two eras, the 50's and 60's. For lunchtime excitement, the Senior guys ganged up on the Senior girls, for a game of powder puff football. Thursday was Aloha day, with bright colors and many leis. On that day, every Senior got to sign their name on a huge poster. This Homecoming Spirit Week was one never to be forgotten!

## Fun, Spirit and Smiles

# Homecoming Faces Are Afloat

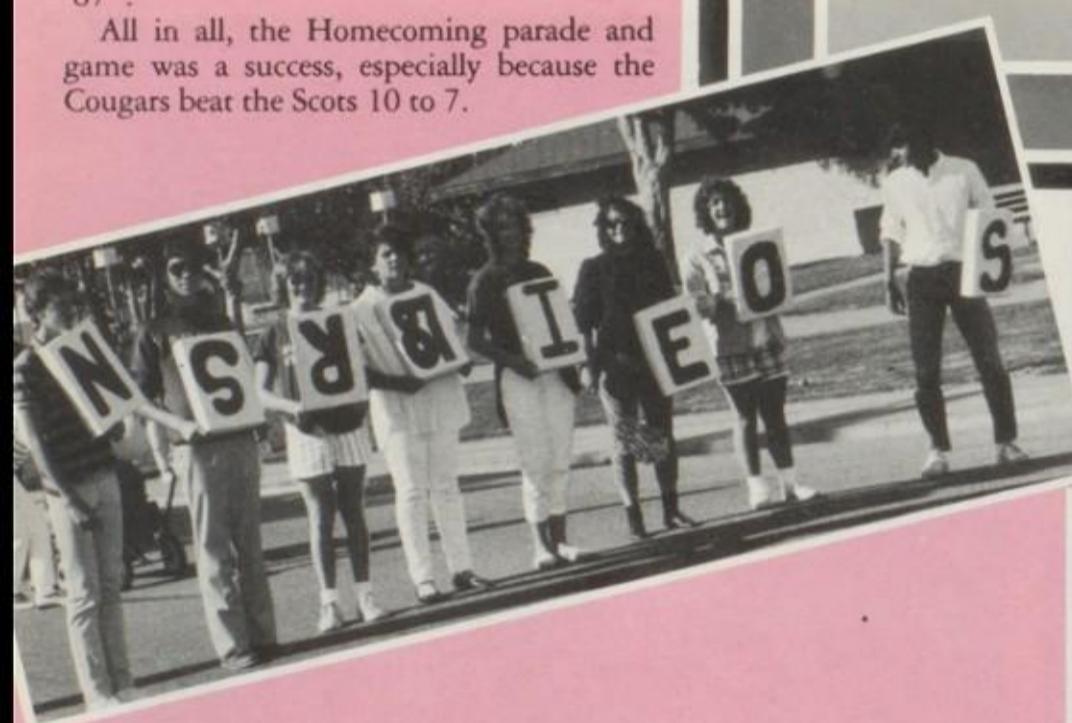

The Juniors (class of 88) took first place overall in the homecoming activities this year for the first time, but won first place for their float for the second year in a row. Their hall decorations were great, and the courtyard's graveyard was one-of-a-kind. The Juniors, following the theme of Halloween, used witches as the theme to make up their float. A cauldron was the main attraction and was backed up by a broom and a witch's hat.

The Sophomores conquered second place and a tombstone to represent the Halloween theme. They had dry ice behind the tombstone to resemble fog in the cemetery.

Taking third place the freshmen had more of a gory float. They used body parts (from a mannequin), fake blood (ketchup) and Friday the 31st posters covering their truck.

In last place the Seniors came up with the most interesting idea. Weighing over 100 pounds, the pumpkin with a face of 87 was towed all over Albany in a little red wagon. Towing this wagon was Meg Peterson and Andrea Tung dressed to the tee in red and white. The sign carriers from the class of 1987 had a little trouble spelling "Seniors '87".

All in all, the Homecoming parade and game was a success, especially because the Cougars beat the Scots 10 to 7.

## The Candidates

FRESHMEN: Antonio Cediell, Tom Richardson, *Emory Tbung*, Peggy Jules, *Sara Young*, Tiffany Ringgold. SOPHOMORES: Joel Shelton, *Eric Mapes*, Pat Hawthorn, Eric Flenoid, Erin Flowers, *Adrienne Olmstead*, Dawnya Pring, Tamika Abdullah. JUNIORS: Doug Bailey, Mike Pinero, *John Bae*, Jason Mears, *Sara Press*, Shannon Askins, Brenda Santos, Angie Luna. SENIORS: Dan Shepherd, Ben Bakkenra, *Don Turtle*, Mike Clark, Mike Parham, Ross Culverwell, Linda Wells, Serafina Kelly, *Penelope Lackey*, Jolie Brunetti, Michelle Hazlett, Kristiina Middleton.

This year's Homecoming Dance was put on by the senior class. Bob Acton from Laser Productions disc-jockeyed and he brought with him a video screen which showed videos of AHS students in their classes. In the middle of the dance, the Homecoming Princes, Princesses, Queen and King candidates were named and walked out in couples, receiving red or white roses. Andrea Brunetti, this year's ASG president, was supposed to call out the names of the candidates but couldn't because she had laryngitis, so Jenny Gould did it for her. For the Freshman Homecoming Prince and Princess, Emory Tung and Sara Young won; the sophomores Eric Mapes and Adrienne Olmstead won for their class' Prince and Princess; and for the Juniors, John Bae and Sara Press became Prince and Princess. For this year's Homecoming King and Queen, Don Turtle and Penelope Lackey were coronated. The couple started the next slow dance, wearing the crown, tiara, and robe that is the traditional outfit of the Albany High School Homecoming King and Queen.

## Homecoming 1986: Albany Brews Piedmont

It was a big game to rival that of Cal and Stanford. The Albany Cougars hosted their perennial foes, the Piedmont Scots. It wasn't a clash of Titans, since both teams were together at the bottom of the league (ESAL). That was insignificant to the players who only wanted to avenge the one point loss to Piedmont in 1985.

Throughout the first half, the defenses played rough, holding their opponents away from their goals. Then with three minutes left in the half, the Cougars went on the drive. Taking over at the Piedmont 49, Mike Parham put his improving arm into action. He hit a wide open Sloan

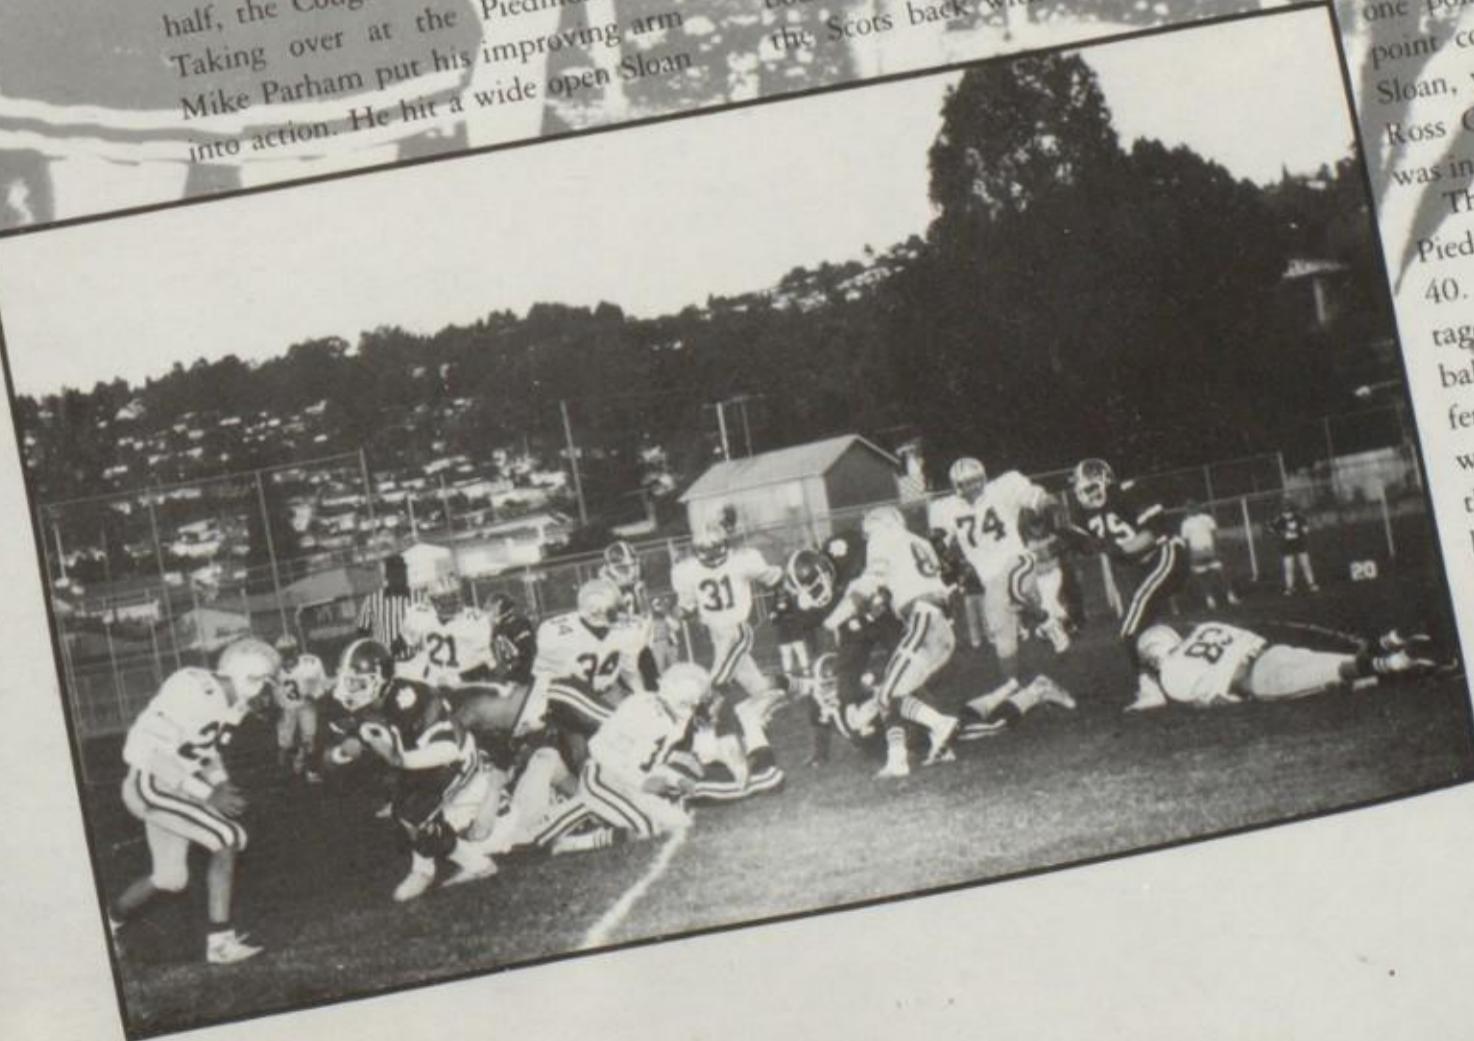

for 25 yards down to the 21. Going with no huddle, Parham connected with Dan Shepherd for another nine yards and the Cougars were closing in fast. On third and one, the ball was fumbled when lineman, Matt Wanlin, picked up the ball and got the necessary yardage for the first down with less than one minute to go. The Cougars' field goal attempt went wide as the two teams went into the locker rooms scoreless.

The second half started off dismal for the Cougars as the Scots scored on a 40 yard run. But the proud Cougars bounced back when Dan Reed sent the Scots back with one of his deep

punts. With it now fourth and three, Albany pulled an incredible fake punt. The action dominated the right side of the field, when out of the pack broke Raul Velez with the ball. This miraculous 50 yard play set the stage for the next sensational play. Parham rolled out and threw a looping pass toward a wide open Don Turtle. As the ball approached, Turtle slipped to his knees where he made a diving catch inches from the ground, for another Albany firstdown.

With the standing room only crowd reaching a decimal high, Parham rolled out again, and finding no receiver, ran into the end zone for a touchdown, trailing the Scots now by one point. In an attempt for a two point conversion, Parham pitched to Sloan, who in turn threw a looper to Ross Culverwell and Albany, at last, was in the lead, 8-7.

The Albany defense obliterated Piedmont, who fumbled on their own 40. The Cougar offense took advantage of the situation and moved the ball to the one inch line. Here the offense halted and ran the clock, which was seen to have 30 seconds left. As the clock ran down, Piedmont got the ball back. They got to the four yard line, when lineman, Matt Wanlin, buried the quarterback for a safety, securing the 10-7 victory, the first homecoming game to be won in two years!

From X-Country to tennis, the Albany athletes are full of Cougar spirit and drive. In the Fall, our athletes participate in such sports as X-Country, tennis, football and volleyball. During the winter we test our skills at basketball and wrestling. As the year comes to an end, track, softball, and baseball occupy our time. All in all, every sport at Albany High is loved just as much as another.

# Associated Student Government

The Albany Associated Student Government (A.S.G.) is a group of student representatives who make priority decisions dealing with student life at Albany High. They control the calendar of student activities and decide what activities are going on, and who's in charge of each activity. The purpose of a student governing body is to make decisions that reflect the desires of all students with a variety of different opinions, which enables us to make the best decisions for the majority of the students.

— Andrea Brunetti

This year's A.S.G. stood witness to both challenges and triumphs, as well as to the growth of energetic, creative individuals into the hardest working group I've ever known. I believe each of us will leave here with a new sense of maturity, responsibility, and self-importance!

— Christina Dravis

This year's A.S.G. has proven to be a cooperative and constructive body of concerned student representatives, competently fulfilling its obligations to the students by being active in school affairs and yielding decisive results, thus allowing for Albany High to be a better institution of secondary education.

# AHS BLOOD DRIVE

## ALBANY STUDENTS GIVING ALL THEY'VE GOT

This was the most successful blood drive ever! After everyone was drained, there were 88 pints of blood, total. We even had seven teachers, an assistant principal, a secretary and a parent donate blood. These pints are now credits toward our school, in case someone is in need of blood sometime this year. Perhaps next year, Albany High will have two blood drives instead of just one.

A group of adventurous A.H.S. students flew to Washington D.C. with history teacher, Mrs. Genie Miller, on November 30th for a week of on-the-go excitement. Our transcontinental consort consisted of Mike Aldersen, Phoebe Emker, Andrew Hawthorn, Maryn McFarland, Mike Nagle, Mike Parham, Paul Rosenblatt, and Elee Rogers. While there they studied U.S. government, the history and culture of D.C. and other areas of the United States. They studied U.S. relations with the U.S.S.R., the delicate balance between free press and national security, and current events, including the Iran-Nicaraguan weapons affair. They visited embassies, office of Congressman Stark, Capital Hill, the Smithsonian Institute, the Supreme Court, many memorials, and the Kennedy Center where they saw 'Raisun in the Sun.'

# Jazz Band

Lunch hours are customary practice sessions for this select group of musicians. These experienced entertainers perform a variety of music, including rock, old blues and jazz. They participate in competitions throughout the year as well as perform on campus for various functions, like the homecoming game half-time activities, and the Concert in the Park in June of each year. This class periodically features out-of-town speakers. This year, Mr. Douglas arranged for a visit from a distinguished musician who teaches at Berklee Music College in Boston. He also offers to his students the opportunity to attend weekend retreats in the Santa Cruz mountains, packed with talent shows during the weekend and a concert on the last day.

Not Present: Ethan Hall, Nathan Perdue, Theron Dyble, Mike Parham.

# Orchestra

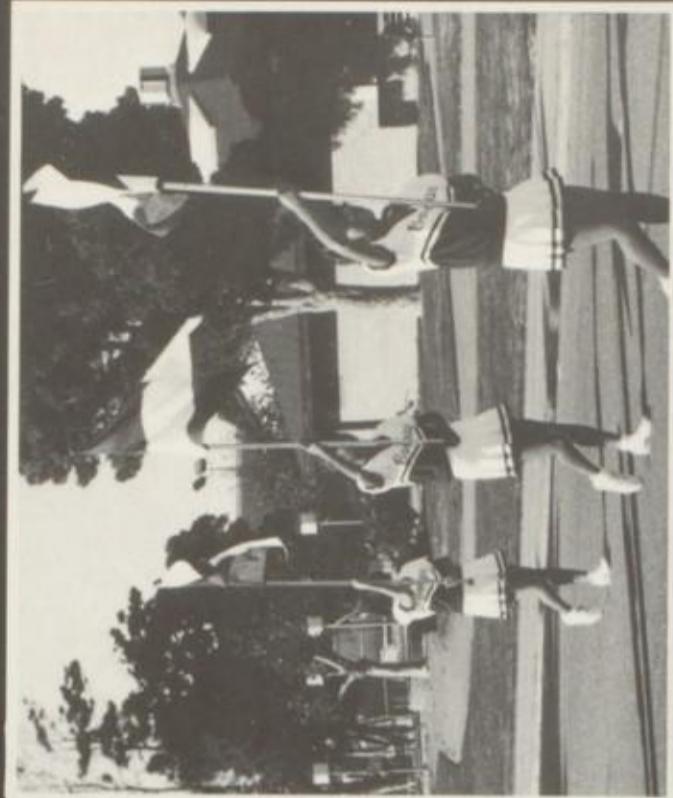

Members of the orchestra are a talented bunch with years of musical experience behind them. But the one thing that sets them apart from other schools is DEDICATION. Members of the orchestra meet during their lunch hour for bi-weekly 45 minute practice sessions throughout the school year. They present an annual Christmas concert each year, as well as perform in late spring with the production of a Cabaret-type concert. Many students are also members of the Bay Area Wind Symphony, and other youth orchestras as well. This excellent preparation for aspiring musicians is due to Mr. Douglas' hard work, dedication, and experience in working with youths. As one of his students so aptly put it, "It would be impossible without him."

# Bye Bye Birdie

## A Musical Comedy

Book by Michael Stewart  
Music by Charles Strouse  
Lyrics by Lee Adams

Directed by Lawrence Harada  
Choreography by Karen Stenger  
Musical Assistance by Janeen Rydman  
Music Accompany by Mary Wallmann

### Summary

Set in the late 50's, the musical "Bye Bye Birdie" parodies Elvis Presley's drafting in the army. The rock star this time around is the fictitious Conrad Birdie, who has been drafted into the army, much to the dismay of the teenage population of America. This musical comedy's storyline revolves around the "One Last Kiss" Conrad is to bestow upon one lucky girl (Kim MacAfee) before he leaves. The central adult characters are Albert Peterson, Conrad's manager; Rosie Peterson, Albert's secretary and fiancee; Mrs. Peterson, Albert's domineering mother; and Mr. MacAfee, Kim's father. The central teenage character's are Kim, the lucky girl; Hugo Peabody, her jealous boyfriend; and Ursala, Kim's best friend. Among the memorable songs from this production are "Put On A Happy Face," "Kids," "Telephone Hour," and "One Last Kiss."

Larry, Jancen and Mary

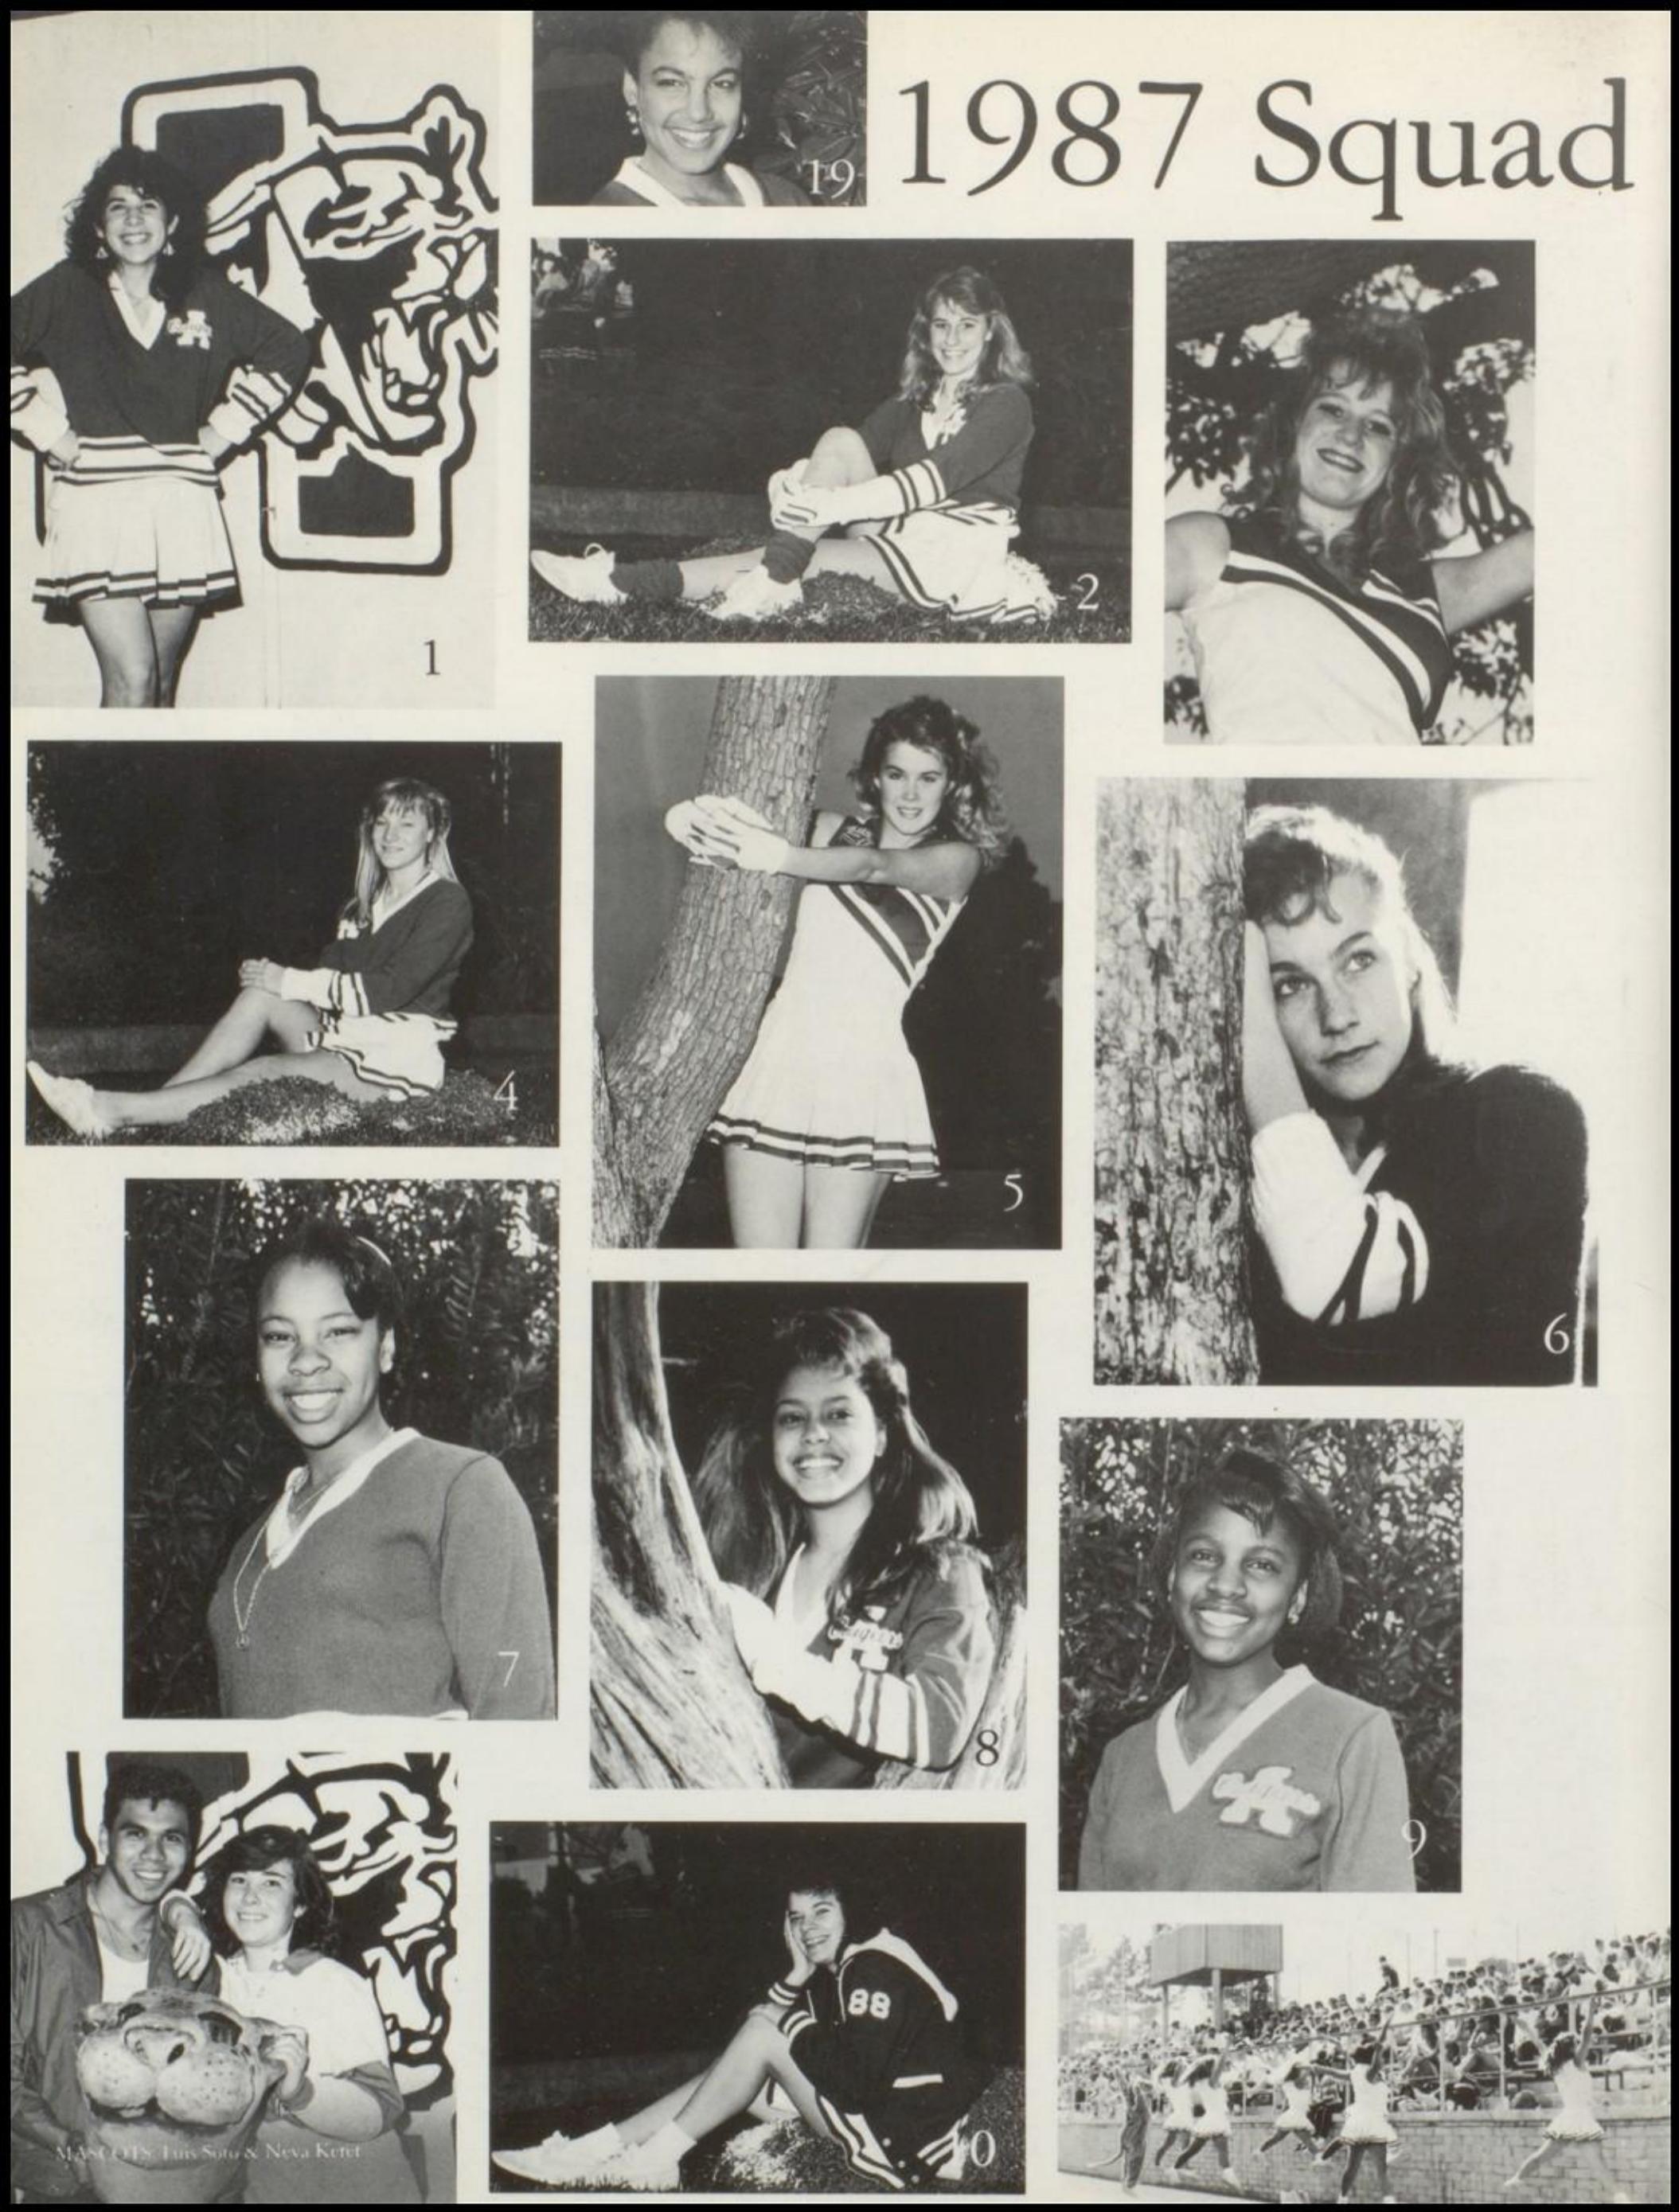

Albany High is rich with talent, both musically and dramatically. The annual spring musical productions are always an excellent example of this talent. In my years at AHS (I am a recent '85 grad) the musicals represented a special part of the school. It was a place where the musicians, jocks, honor students, and class clowns all worked together and focused their energy to put on a fun-filled two hour production. I feel that these productions should be a learning experience for everyone, to learn about the technical aspects of theater (acting, singing, dancing), learn about each other, learn how to push themselves and be creative. Everyone has talent, and it's how one applies that talent that is important. I stress three things in this production: (1) have fun (life's too short not to), (2) respect themselves and other people, and (3) that nothing in life is given to you, it's earned. This is what I learned from AHS, and this is what I hope to give back to it through these productions.

# Cougar Follies

## Faces in the Spotlight

Cougar Follies has been a tradition at Albany High for many years. The Senior class produces it to earn money for their class. Ramyar Tabatabaian, Mike Parham, Jeff Kim, Dan Shepherd, Kevin Arnold, and Andy Seltzer were in charge of this year's production. Early in November they held auditions. Many different types of acts tried out and, luckily, they all received a spot in the show.

On January 22nd and 23rd, at 7:30 pm, the 1987 production of the Follies was held. In the spotlight, on Thursday and Friday night, was Mr. Fred Brill, Master of Ceremonies. He juggled, did flips, and read Dr. Suess' *Fox 'N Sox*. Next appeared the commercial addicts, presenting a few of our favorite T.V. ads. Many singers performed, including: Scott Sterling, Sara Huang, Anne McSweeney, Semoine Sykes, Scott Thomson, Andy Seltzer, and Chaz Green. Following these acts came the band "Rabbi Conspiracy," some instrumental music from Joe Ghione and Ethan Hall, and, last but not least, the Senior Men On Campus left us breathless with *Happy Trails*, sung for every Senior lady.

Everyone who participated in 1987's Cougar Follies did a fabulous job, as well as "showed off" their acquired talents.

The Commercial Addicts showing how commercials should be done. Adam Ridge and Chris Read, the light crew. Semoine sings wonderful songs by Teena Marie and Irene Cara. Mr. Fred Brill practices his juggling. Senior Men warm up their voices singing "Happy Trails."

The AMERICAN FIELD SERVICE (A.F.S.) promotes cultural understanding by sending and receiving students from different parts of the world. As a club, A.F.S. is a support group for our exchange students. Through international days, parties, and pizza night, A.F.S. has been an active part of the community and especially, Albany High. Our exchange student, Osama, has run cross-country, and taken physics (which he has enjoyed immensely). We sincerely hope that Osama has enjoyed his experiences at Albany High.

Advisor: Ms. Alper; President: Karen Beals; Vice-President: Adrienne Olmstead; Secretary: Julie Kim; Treasurer: Jason Fink; Publicity Manager: Phoebe Emker; Organizer: Soseh Kevorkian.

This is Osama Haj-Ali, our A.F.S. Student from Jordan. He lived in Albany with the Jennings family and graduated with the class of '87. When asked what was different about our country, his response was, "Everything!" In his own country, they eat more rice was his answer as we asked differences. When asked what he thought was the major difference between countries, he responded, "Here, everyone is busy all the time. Everyone is in a hurry. Here, almost everyone works. In Jordan only the father works. Here, the children are more free. At 18, a child can do anything he wants. At home, that is unheard of. The family is always together at home. Children don't leave when they turn eighteen." Thanx Osama, keep in touch.

*ADVISOR: Mrs. Miller. MEMBERS: Albert Chung (president), Farid Javandel, Anton Golmen, Rhys Trueman, Eric Schultz, Richard Chen, Joseph Chen, Ben Sikora, Peter Chen, Ben Kananan, Zeke Stevens, Paul Rago.*

This group of guys, interested in the Medieval Ages, lodged themselves in Mrs. Miller's room during lunch to play games and to learn about the Medieval ages. Their advisor will sometimes even get them video/movies that will teach them more about this time of history.

## Theatre Club

In the Theatre Club the members saw plays at A.C.T. and Berkeley Rep as well as discussed their shared interest in the theatre. The intentions of the club were to increase awareness of the world of theatre and to provide the opportunity for interested students to participate and become more aware and knowledgeable as to the role the theatre plays in society.

The Computer Club has been at A.H.S. for the past ten years. It consists of a group of students that have an interest in computers. The activities have included working on computer projects, supervising the computer room, taking educational field trips concerning 'high-tech' topics, and welcoming computer-based demonstrations by computer specialists. Their goal for this year was to take an Alpine ski trip to the Sierras. To raise the money for the trip, the Computer Club ran car washes, worked in the kitchen during Bingo night, and held numerous other fund raisers.

The Math Club was formed by a group of students who are interested in math. The activities included:

- mathletes in different schools every month
- noon contests
- Santa Barbara math contest
- Poly Royal math contest

and many many more contests that are related to math. The teachers who volunteered as chauffeurs get a hand of thanks. It was a fun year!!!

# Bike Club

ADVISERS: Joe Cruz and Ed Hill. MEMBERS: Jeanelle Provos t, Kerry Wong, Jack Fu, Adam Richardson, Eric Gray, Silvia Blason.

▲ "The aim of the Bike Club is simple: to go on bike rides and have fun, and if we get fit along with it, all the better. We ride usually on Friday afternoons about 3:30 and go to various places, such as Inspiration Point, Emeryville, Grizzly Peak, or Briones Park. The rides typically last for one or two hours, after which we feed our faces (or the club's, of course). A good bike is not necessary, but it does help as we meet some pretty long and steep hills. Our motto is: 'Ride, fun, fitness, food' which sums us up quite nicely."

### Senior Men on Campus

This "club" has been a tradition at A.H.S. for many years. And although it is not registered with A.S.G., we decided that, for once, we'd include them with the rest of the clubs. This group of guys consider themselves the "brother-group" to Senior Girls Honorary. Though not thoroughly organized, as this picture shows, they're just a group of seniors trying to survive their senior year by having as much fun as possible.

### W.S.U.

The original name of this club was the We Skate Union, their original idea was to have their picture in the yearbook and raise money for club activities. The original adviser of this club, though, had beliefs contrary to those of its' members and of the club's activities, so the club was officially cancelled. There is no longer an official W.S.U. yet its' spirit lives on. The involved students had always wanted a club, and though it was short-lived, and there was no formal photo of its members in the yearbook, we decided to let them have one of their original goals reached. The well-known name of the club came to be the Whoop Student Union or the Weekend Student Union. Their logo is still seen all over A.H.S. on people, as well as their T-shirts, sweatshirts, jackets, and binders. "Everyone had a club, so we wanted one, too."

PRESIDENT: Sean "Yabu" Yabasaki, VICE-PRESIDENT: Tom "Hal" Benson, SECRETARY: Tim Close, TREASURER: Steve "Ike" Eisenberg, MEMBERS: Shawn Horsman, Jake McCuster, Stacy McCuster, Parker Newton, Jason Sangmaster, Kent Zapata. The gals clubs! Sorry, they can no longer be called that as of this year.

The Service Club is an opening for sophomores to do exactly what it says; serve. Such activities as Back to School Night and the Soroptimists' Oktoberfest Open House help members to earn points. Baking foods for school activities like Cougar Follies, the Junior Talent Show, and the annual musical help the club earn money to take on to the next year when they become juniors and . . .

Big Sisters! The members of this club get Little Sisters (8th graders from Albany Middle School) and take them to school functions and other outside activities, earning points while do-

ing so. The purpose of this club is to supply a "familiar face" to the new freshmen (at least those that were Little Sisters) in a senior girl, formerly a Big Sister, now a . . . Senior Girl!

Senior Girls Honorary, except *this* year the club should be called Senior Girls and Guys Honorary, seeing how four of the members are of the male species and one of them is the club's co-president. The club's highlight activity is the annual weekend snow trip in Tahoe. They all stayed in a cabin, skiing and partying all weekend. With guys under the roof this year (oo, let our imaginations wander for a moment . . . ) it was really FUN!!!

The Black Student Union (B.S.U.) includes most of the Black student body of A.H.S. and has grown significantly over the years, especially in the past two. In 1984, Rhonda Smith took over as the club's president and began getting the club the recognition it deserved. Its activities have included such things as fund raisers, talent shows, trips, a haunted house, and a planned grand finale program for Black History Month (in February). In October '86 alone, they raised over \$200.00 and that was just the beginning. "Our goal is to raise enough money to have an end-of-the-year trip," said Tracy, this year's President.

## Tennis Club

The Tennis Club is an opening to students who like and appreciate the game of tennis. Their programs enable tennis players to find partners, to improve tennis skills and to have fun during the school year. Goals this year were to (1) set up a ranking system to encourage people to challenge themselves, (2) see tennis tournaments and (3) set up their own tennis club tournament in the spring.

Ever wonder where that money goes from those gummi bears? Well if you buy 'em from an Hispanic clubber during their traditional sale, it supports the groups activites. And what are we paying for . . . their dinners at Mexican/Spanish restaurants, tickets for Latin movies, museum showings of Latin art and things in that nature.

## Le Cercle Francais

Le Cercle Francais is a social organization which aims to promote French culture by dining in French restaurants, viewing French films and art exhibits and other activities related to France and its culture. A major goal of the club this year was to raise money for a scholarship for a deserving senior in the French department. As you can see, even people *not* in the club wish they were!

The War Resisters Club is a group of students devoted to educating themselves and the general public on anti-war issues such as the draft, Central America, the arms race, and several others. They have sponsored speakers, slide shows, films, petition drives, and participate in rallies and protests around the bay area. They believe that war is a crime against humanity, and are opposed in principle to all wars and any war. They believe that there is always a better solution than war, and that grassroots American nonviolent resistance is the best way to get their message across. They have modeled their club on an international organization called the War Resisters League.

*"The War Resisters League is indispensable for the preparation of a fundamental change in public opinion, a change that, under present-day circumstances, is absolutely necessary if humanity is to survive."*

The AHS Ski Club is a club designed to satisfy the desire of those students who love skiing and want a convenient and fun way to hit the slopes. Club organizers made sure the trips were nothing but a chance to get outdoors, to meet new people, and to have fun with friends. At the beginning of the season, snow was very scarce but as the rain began to fall, AHS's skiers couldn't wait to hit the slopes. It was the club members, and especially the organizers, that made this year the success that it was and it was those members that made the AHS Ski Club one of largest, funnest, and most popular clubs at AHS.

## Auto Club

The Auto Club is made up mainly of Advanced Auto students who enjoy working under their cars. The extra time — outside of class time — allows students to talk about problems with their cars and allows some of them to work on special projects.

Hey Chic -

So what's up? How was your weekend? I heard about that party Saturday night. We're talking Full Whoop!! It hell of sucks that I missed it, but I had to go see CATS, in the city with my parents. We had a boomin' time tho-, eating dinner in San Francisco, then goin' out to the play. But dude, tell me more details about the party! Helluv couples got together-huh? What a trip! And that was so harsh when that dude, Jeff, just started cappin' on his girlfriend and started to brawl. It was lame to fight it out at the party, since it got the place majorly rolled on. Danny said that she janned out of there early, but since there were helluv people it must have taken days to clear the place out.

Hey! I'm so stoked about going to the Huey Lewis concert next week. It's gonna be so LIVE!! A straight up RAD time! Did you go see Beastie Boys when they were here? Was that bad or what?

What's up for lunch today? I say we go get some serious grub. I'll meet you out in the courtyard. Then I can tell you how I totally roasted myself in front of the entire English class today. You'll just have to promise not to call me a fool. Oh don't forget we are gonna see a movie this weekend - I don't know - Top Gun or Platoon - sound cool? who knows, maybe I'll even invite Ted and Ron. Psyche! Don't worry - I wouldn't dare torture you with an evening out with those goobers!

Well, babe, Gotta Jam -  
Talk to ya at

## If You Had the Choice, Would You Go to a Different High School

Patrick Foster, 11th: "It's the best school in the world. It's the best school to be at for a good education. You'll be great!"

Kevin Wehr, 9th: "I'd stay at Albany because I know everyone here, not like a big school like Berkeley where you walk down the hall and you see weird people that you don't know. And so, you can't relate to people and here you can relate to everybody."

Emily DeWolf, 12th: "I actually like this school because it's a fairly small school and people know each other very well. I also think that you get a fine education."

Leronne Armstrong, 9th: "If I had the choice to go to Albany or not, man, I'd go to Bishop O'Dowd; cause Albany's weak!"

Miyoko Chu, 11th: "I would stay at Albany. You can play volleyball and go out for the play and you can be more involved. I think the teachers at Albany are really good. I think they really care about what they're doing."

Alexandra Szostak, 9th: "I would go to another school because Albany doesn't offer the classes that you could get at a bigger school. Like Berkeley, for example, offers fencing and German and more languages. Also, Albany has so few courses and more students in each class that it's gridlocked now, so even if you wanted to you couldn't move down to an easier class. That would be the only reason I'd think of moving."

Brian Parsley, 11th: "I'd stay at Albany because it's a nice little town; everyone knows everybody. I think the school system's really good. Everything seems to work. It's a small school, and everyone seems to know everybody. The atmosphere at the school is really good."

Paul Rosenblatt, 12th: "I live with my grandfather so I can go to school here. I'd stay at Albany because it's a great school! It's nice and small. You can talk to all the teachers and go and get help during lunchtime. Actually, with any teacher you can walk in and you can talk during lunch if you have a problem, and they're always around to talk to you. But, in a bigger school, that's not possible. It's easier to get into CAL from Albany High than from Berkeley High. They only take a few people from Berkeley High. I talked to some people in the Admissions Office and that's what they say. You have a better chance. That's one of the reasons why I came here."

Jim Beeth, 10th: "I'd stay here because I like it here the best. I've been to school in other places, like I've been to school in Virginia. People here are nicer and the weather's good. The academics are easier than on the east coast. It's smaller and I like it here the most. I have to leave during the third quarter. I'm moving to Paris, France, to live with my dad. I'm not looking forward to it. I'd rather stay here."

# The Long and the Short of It

"The grass is always greener," but not at Albany High, until this year, anyway. Five years ago, George Fosselius and his ecology class decided to change the asphalt faculty parking lot into a cool, green lawn, complete with walkways. Sounds like an easy enough project for an enthusiastic teacher and an

energetic class. But they soon found out what a bumpy road they chose to take.

The students first observed from the second story as fellow students traveled across the asphalt. Phase one was complete when they created the 'X' design for their green breezeway.

Phase two: The students borrowed city jack-hammers and began breaking up the asphalt, leaving the portion that was to become the walkways. They then began to collect material for topsoil, such as ash from Mt. St. Helen and elephant manure from Circus Vargas.

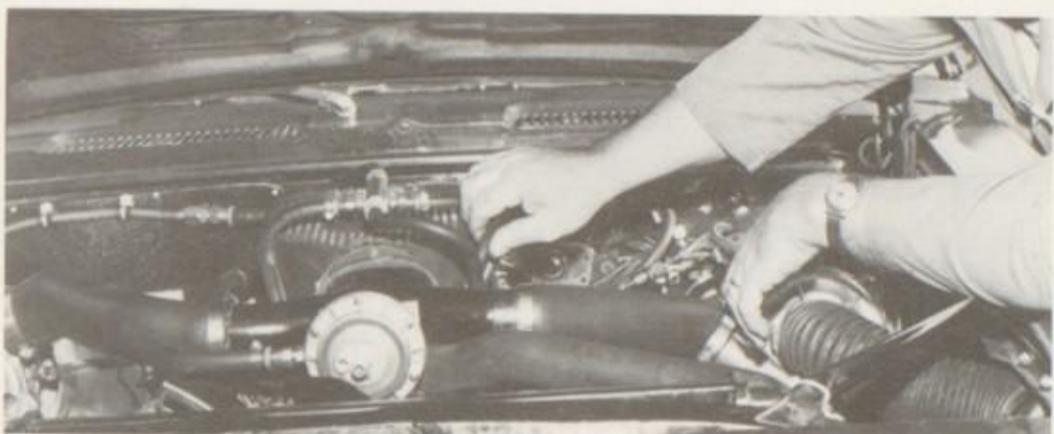

In response to their efforts to plant trees and grass, the Class of '79 donated \$950, which was put in the district fund account, safe and sound, they thought. Unfortunately, they were never able to use that money. It had disappeared.

The Ecology Class used the plot of ground for various activities during the next couple of years, including a vegetable garden and a

wind-mill experiment. The hope of an expensive lawn, however, was revived when the Class of '81 donated \$800, for sod and topsoil. This was enough to complete one section, leaving three sections in a 'pot-hole' and muddy condition.

Little changed until it came to the attention of the district manager, who in '86 reported this 'hazardous condition' to the board. In response, the district finally came through! To Mr. Fosselius' relief, they donated \$1700 of district funds to complete the job. In addition to finishing the grass, they also contributed \$900 with which to install a sprinkler system.

Mr. Fosselius now feels that the students were paid back in full when the district completed the job. Despite it taking years of hard work and entanglements, we now have a beautiful place where all of us can gather and relax. Thank you, Mr. George Fosselius!

## When It Happened, Yearbook Was There!

"Albany High School is an oasis in the middle of a desert," was the W.A.S.C. committee response when they came to Albany about five years ago for accreditation and evaluation. But, the oasis is drying up! The necessary funds to continue many of the classes at Albany (that makes our school so special) are at a desperate low and the financial situation is not getting better as Deukmejian has continuously cut (hacked) the school budget. These cuts come at an inopportune time as the state-wide high school drop-out rate is at an all time high; teenage drug and crime rate is at an all time high; and sadly, the teenage suicide rate is at an all time high, being the second highest killer of teens in America today.

At Albany this year, the board of directors was faced with the first time closure of many

vocational and extracurricular classes. At press time, the situation seemed hopeless for the continuation of the auto and wood shop classes. In spite of a unified presentation from the faculty for the comprehensive program, little hope remained for photography classes, printing, mechanical drawing and music.

Parents and students went to the board to stress the fact that the students would not be the only losers. In the long run, the economy would surely suffer with the decreasing number of knowledgeable individuals in life-skills, such as auto mechanics and cabinet-making. In addition, housing values will also decline because one of the reasons why homes in Albany are expensive is because of the high ratings of our schools. Many out-of-district students may go to their local schools

that offer the vocational classes, leaving Albany in an even tighter financial bind. And worse, for the student who drops out of school completely, the community can expect an increase in crime, drugs, and violence.

This year was the first year of the proposed drug testing of all athletes. It created much controversy due to the fact that most athletes believed it was an infringement of their constitutional rights. Many athletes protested at board meetings because they felt that the administration was singling them out as drug users, when they are a very small segment of the student population, and not representative of the drug users on campus. Guidelines for the program could not be worked out, so the proposal was dropped.

Our annual talent show, sponsored by the Junior Class, once again exposed the hidden talents of AHS students. Sarah Huang and Simond Sykes lulled the audience with their song, "KISS" and other bands played for the enjoyment of all. The AHS short Flags performed "I Can't Wait" by the Jets, and the Jazz Band filled in at intermission. It proved to be an enjoyable evening for all who attended.

# A.H.S. Fashion *Expressions*

After looking through back issues of the "Cougar," we realized that we saw the same thing every year. Previous yearbooks don't represent what guys and girls were. The result was a confusing hodge-podge of styles and trends all thrown onto one person. You're a girl who goes to A.H.S. doesn't mean that you *all* wear tube skirts, and not every guy has a flat-top. This year we wanted to do something different. We randomly chose students from every grade and "style" and asked them to show them off. "We took them all and had a fashion shoot. In this way we tried to show what Albany *really* looks like. We're individuals, not a bunch of clones, but there's one point on which we all seem to agree: Albany looks good!"

We go to the same places, we do the same things, and this year it seems our clothes show it. Unisex is in! From styles to jewelry to brand names, you can see it everywhere. Here are some examples from A.H.S.:

- Thermals
- Jean Jackets
- Logo sweatshirts  
(i.e. College or Sports)
- Plaids and Flannels
- Rugby Shirts
- *Man-sized* sweaters
- Anything black
- Leather jackets
- Topcoats
- Ripped jeans
- Leggings
- Hoop earrings

(more and more guys are getting their ears pierced)

- Anklets
- "Chain" necklaces

**B**rand names are going unisex, too! People can get their favorite clothes in either the guys or the girls departments in stores. They'll be in *both* places.

- Fila
- Swatch
- Coca-Cola
- Guess?
- Generra
- Bennetton

Our hair, however, is as different as ever. *Girls*, for the most part, seem to have their hair cut at a medium length, and although the styles differ, curls and waves dominate. Some of the *Guys* went wild in the fall with decorations shaved into their hair, and many others "flat-topped" it. At this rate, we may all show up at our class reunions wearing the same outfit!

by Rachelle

## It Was the Worst of Times

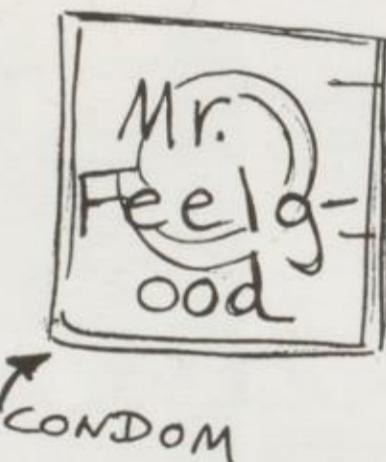

1986 ended with much excitement and surprise, but also confusion and questions. Especially one: EXACTLY WHO is running this nation of ours? IS it Ronald Reagan, the president, or someone else? Why is this question asked? Here's the story. After announcing to the public that WE, the Americans, will not negotiate with terrorists in any way, shape, or form, (And he proved this with the attack on Quaddafi.) it appears that we had done just that. The United States government was sending arms to Iran, a supposedly "terrorist" country in exchange for hostages held by Shi'ite Moslems. Then, we sent the money that we made by this arms deal to fund the Contras in Nicaragua. Excuse me, Mr. President, but isn't Iran a terrorist country, as you have mentioned before? And wasn't there a law passed in Congress stating that we are not to send funds to the Contras? I guess I was wrong to believe in your word. Oh, thank you for correcting me! As you explained so diplomatically, we are dealing with "moderate factions" within a terrorist country. Now that we got that straight, here are some more people involved in this scandal: Lt. Col. Oliver North, a NSA staff member who has taken the fifth, William Casey,

Director of the CIA, who suffered a stroke and retired, and Chief of Staff Donald Regan, who has resigned under pressure. The Plot thickens as we add Senate investigation committees, namely the Tower commission, who held President Reagan accountable for the sequence of events. And your response, Mr. President? "Could you remember what you did on August 5, 1985?" Come on President Reagan, get real. This isn't Hollywood!

AIDS is not limited to one group, race, or sex, as it was originally believed. This dreaded disease has no prejudice. The fear caused all to think twice about who they were with, and unfortunately started to make people look suspiciously at each other. The extreme of this fear was LaRouche's attempt to pass a bill in San Francisco to quarantine all AIDS patients. This bill did not pass. To fight this fear, Surgeon General Kopp started a campaign to distribute information about AIDS. He also recommended that, not counting abstinence, the safest means of prevention from contracting this insidious disease is the use of condoms. In 1982, there were 144 cases reported in the U.S. with a death toll of 46. Five years later, there are an estimated 3 million cases in the U.S. with a death toll of 30,000. Currently, there are over 10 million persons with AIDS worldwide, according to a study done by John Hopkins University. AIDS often is not suspected until 2 years after exposure. Each person with whom the victim had intimate contact, has also been exposed. Those people will either contract the disease, or unwittingly, become a carrier. Eventually, however, (within 8 years) the carrier will also perish. AIDS cannot be fought with fear. It can only be defeated with the strong arm of knowledge. So, it is up to us to get rid of this disease, or rather the spread of it.

Meanwhile, President Reagan scrambled to patch up his credibility. In the forty year history of nationwide polls of presidents, never before has a President's popularity dropped so sharply and so quickly. Americans were doubtful about the things Reagan was saying. Was it the truth, or a well covered-up lie? As more facts are revealed, the truth will come out. We shall see . . .

Another subject of growing concern was the dreaded disease called AIDS, Acquired Immune Deficiency Syndrome. Once contracting this virus, the person does not survive. The major problem involved with

## It Was the Best of Times

boat accident in the channel between London and Belgium, where innocent lives were lost. Despite all the bad events of this past year, America still had a reason to celebrate.

To start off the year of celebration, Americans came together at the party of the year held in honor of one of our great monuments. After the Lady Liberty received a much needed facelift and renovation, millions squeezed into Ellis Island to join in first hand while billions of others world-wide watched the spectacular event which lasted four days.

And coming up this summer is the two-hundredth birthday of our nation's Constitution, which should prove to be another week of partying. And while the nation celebrated, we in the Bay Area celebrated the 50th birthday of both the Golden Gate Bridge and the San Francisco-Oakland Bay Bridge. Also celebrating birthdays are Coca-Cola's 100th and Sherlock Holmes' 100th, Hollywood celebrates 100 years in the entertainment industry and the Peace Corps had it's 50th birthday.

Not only did Americans celebrate, but so did the Royal Family. Queen Elizabeth's second son, Andrew, married Sara Ferguson, "Fergie" as she was affectionately called by the British. Other weddings of the year included the Kennedy clan when Carolyn married Edwin Schlossberg and Maria Shriver married movie actor, Arnold Schwarzenegger. Congratulations to all and Best Wishes!!!

This also was the year for sports. With corporate sponsors and Dennis Connor, we took back the Americas Cup from the land down under. The New York Mets beat out the Boston Red Sox, and for the football

fans: The New York Giants trampled the Denver Broncos in Superbowl XXI. What a year for New York!! Unfortunately for San Francisco and Bay Area fans, the 49ers did not have the best year. But despite major back surgery, Joe Montana made a more than speedy recovery and was back on the field in 8 weeks!

In the wake of Willie Nelson's contributions for our own, "Hands Across America"

HAPPY BIRTHDAY

was launched. The purpose of "Hands Across America" was to raise desperately needed funds for our homeless. Ironically, in the land of plenty, the number of homeless increased. Only this time, the homeless consisted of struggling families that were hit by unfair blows of fate. White and blue collar workers who lost their jobs, found it impossible to pay their mortgages, car payments and other loans. When their houses foreclosed and their cars and furniture repossessed, they suddenly became dependent on city missions. The hardest hit are the children through no fault of their own.

Because they lack a place to live, they cannot receive welfare and because they have no money to get started again, it often leaves them in an endless circle of red tape. There was an unprecedent response to this idea, which was "Hands Across America." This human chain, which spanned from coast-to-coast, raised millions of dollars, but due to expenses of the event, like television commercials, the actual amount of money going to the homeless was decreased substantially. However, at least the problem has now been addressed, and now the hope of the homeless has been lifted. But for how long?

## Varsity and Junior Varsity

For the Albany volleyball players, it was another successful season. At the end of the season, both J.V. and Varsity teams were league champs, repeating terrific performances of earlier years.

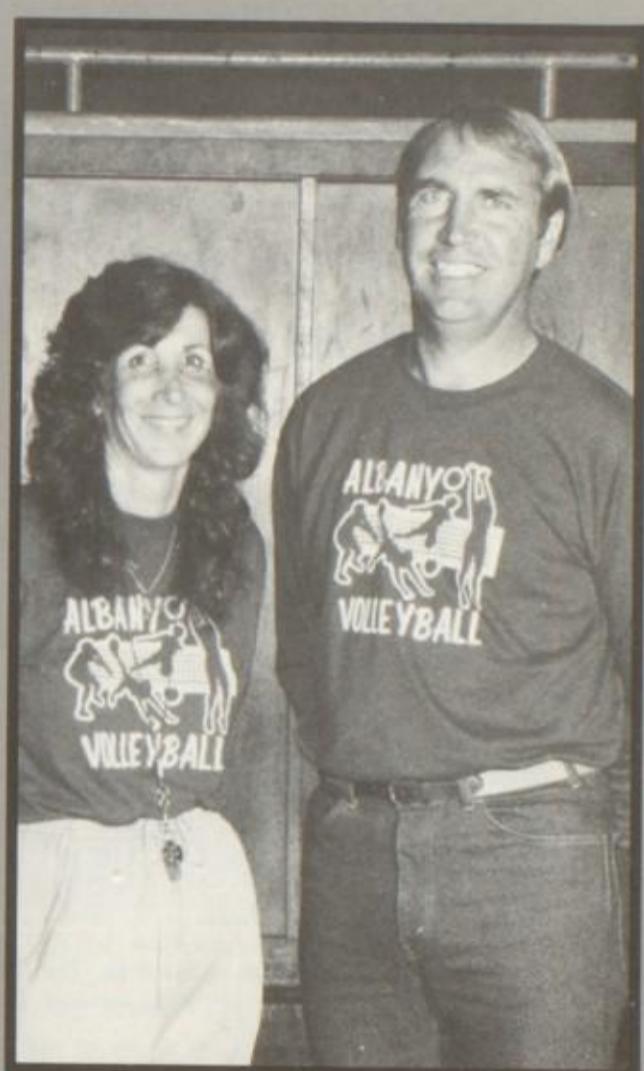

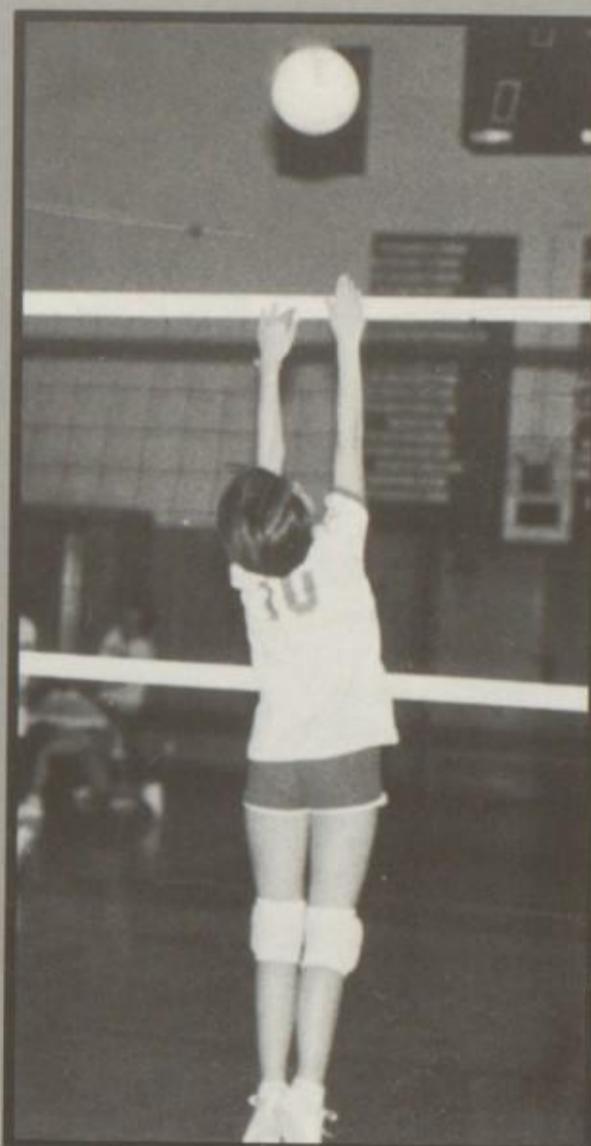

After a 22-3 season the varsity championship series between Albany and Bishop O'Dowd was truly a cliff hanger. Albany won the first two games easily but the O'Dowd Dragons were no pushovers. They took the next two games and the series went into its fifth and final match. Every point was a battle but the Cougars held on to their narrow lead, winning the game 15-13.

**I**t was another successful season for the AHS cross-country team. The girls' team, 4-3, placed fifth in their league. The boys' team, 5-2, fourth in their league. At the beginning of the season, the team went to Frogtown in Calaveras County. Medals and one trophy were brought back by the team which placed second overall. Towards the end of the season, the team went to the League Meet. The girls' team missed going to the North Coast Sectionals (NCS) by one point. The top three girl runners were Phoebe Emker, Maria Delgado, and Meg Peterson. The boys' team placed fourth in the League Meet and went to NCS. The top three boy runners at the league meet were Raffi Kevorkian, Ramyar Tabatabian, and Brad Jennings.

## 'WHOOPIN' AT THE HOOP

is probably the best way to describe this years Varsity and J.V. season. Although the teams did not walk away with all victories, their team was successful in other ways.

"They're a really good group of guys," said coach Doug Kagawa about both the J.V. and Varsity teams. "Both Etchegorry and I are having one of our best seasons ever, since the team is so much fun."

That seemed to be the overall comment shared by all the players, who are looking forward to playing again next year.

## "A Deserving 10-0 Record"

This year, the Albany High Wrestling team dominated their competition, winning all 10 of their Dual Meets, on their way to the Central Coast Conference title.

The Cougar team swept the league tournament by almost 50 points, sending 12 wrestlers on to the North Coast Section.

P. Mello, A. Mikkelson, J. Clark, and the "Slick Lover," A Ravan, joined the Varsity squad over Christmas for a trip to Los Angeles. While there, the Cougar grapplers terrorized a 33 team tournament at Nor-

thview High, and left Disneyland in ruins.

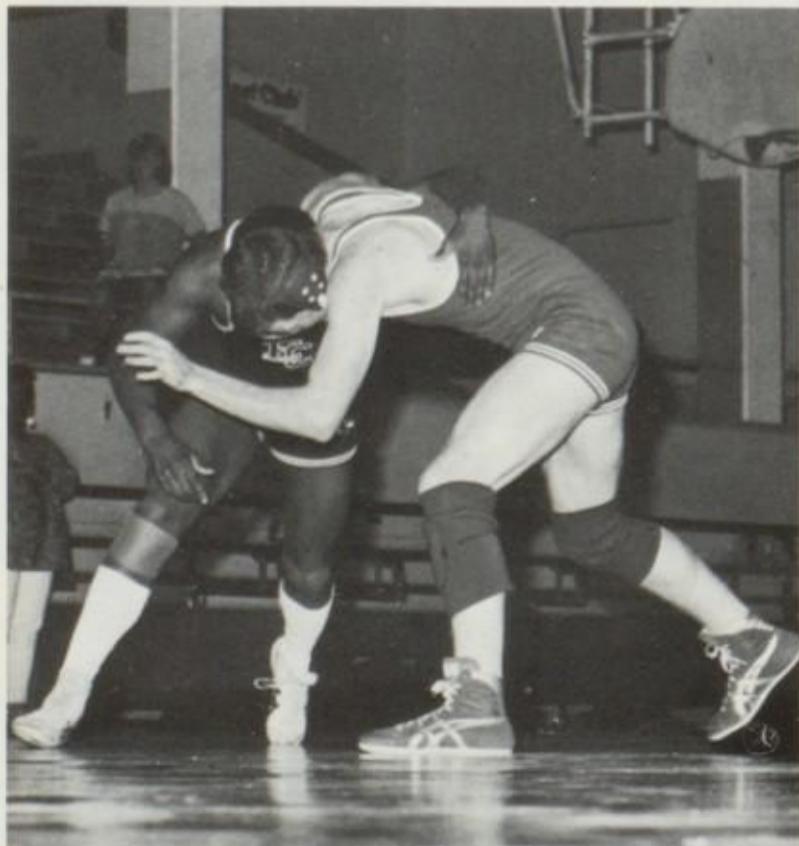

This is the second year in a row that the Cougar Wrestlers have won the CCC title. What makes the Cougars this good? Lots of hard work and dedication on the part of coaches, Kermit Bankson, Paul Weilaker, and Sal Ferrito. These three men provide excellent coaching, as well as friendship, for the Albany wrestlers. Without them, the program would not be as successful.

— Scott Thomson

## “Albany’s Proud Grapplers”

“We were awesome and undefeated, what else did you expect from a championship team?

— Ike  
(Steve Eisenberg)

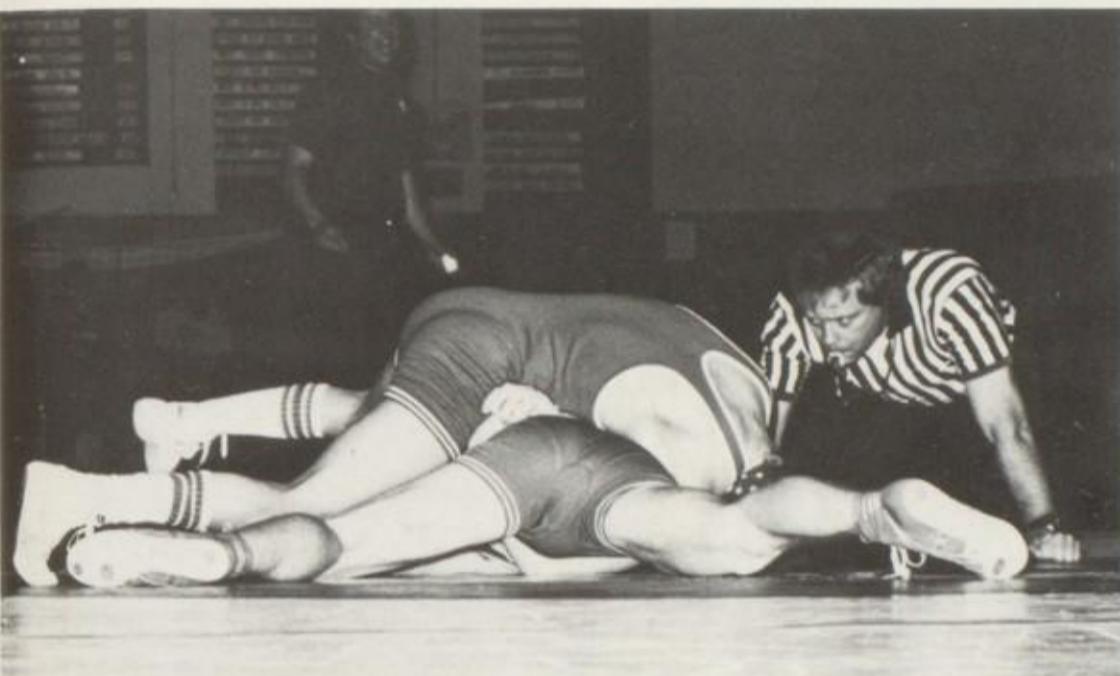

“The success of Albany High Wrestling this year must be attributed to team spirit. It was not through individual heroics, but rather through hard work, dedication, and excellent coaching that we

managed to capture the League Championship for the second year in a row.

— Dan Reed

We must admit, our wrestling team is the best, and always will be! GOOD LUCK to next year's team! Go for it!!

# Again!

The Albany High Track Team had a totally new start this year. Not only did they have a renovated track, but a fresh face arrived to fill the position of coach. Carl Sumler, a past hurdler for El Cerrito High, came to add spirit and unity to the team. Freshmen girls had a large impact on the team this year, making up half of the Varsity Girls' team. Participants of the field events took it upon themselves to coach themselves because of the shortage of assistant coaches. The team was placed in a tougher league this year, but none the less, they went into the season with determination and high hopes.

This year Albany High's Tennis Team scored two "aces" (7-0) against Presentation, and ended up with a 4-6 record (the best in 3 years). This im-

proved record was due to the fact that they had more "faces" on the team. Everyone improved a lot and was enthusiastic. All the members seemed to

become more of a team, and pulled together to make this a great season!

# Amazing Arithmetic

## Master Mathsmen

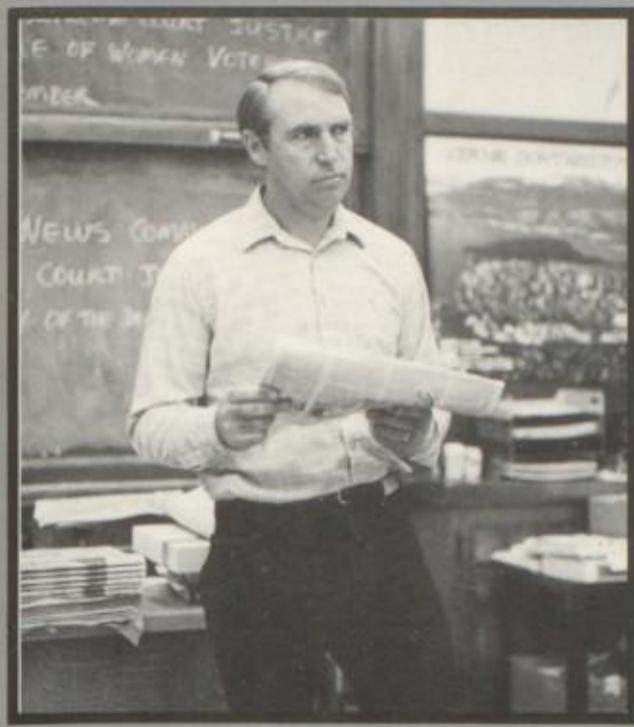

$ax+c(by3)= by+ax3c$ . Is this some alien language used by the anthropods of the Andromeda Galaxy? No, far from it. Kids in the math classes at A.H.S. face equations like this everyday. From basic problems to complex proofs of trigonometric properties, the classes not only teach students numbers, but also show them how to think logically in order to solve all types of problems.

## *English*

In keeping with Albany's attempt to present an interesting academic program, the English Department is foremost in offering a variety of thought-provoking classes. In addition to basic grammar and composition courses, Albany's curriculum includes Satire and Humor, Mythology, Mass Media, Psychological Literature, American Literature, Dramatic Literature, Journalism, Classical Literature and an honor's course in English Literature. A novel approach to expressing oneself in writing!

# History

Albany High's Social Studies Department encompasses both required classes, like U.S. History, U.S. Government and World History, and electives, like Medieval History and Humanities. All of these classes teach us an understanding of how our society developed and how it conducts itself today in our world. We're lucky that at A.H.S. we have a full year of U.S. Government which insures that Seniors will be able to participate intelligently in our Government. Studying history, even though boring at times, gives direction to students, for it's hard to know where we are going if we don't know where we've been.

Remember those freezing mornings out on Memorial Field? We all tried so hard to play football on that frost-covered grass without slipping.

Who can forget seeing all our pals dressed out in their swimming gear? We all were so embarrassed when we really had nothing to hide or flaunt back then anyway!

Last of all, how could P.E. be complete without Mr. Bankson's famous monologue about the "summer/winter of 42/52?" We all must have it memorized by now!

To the underclassmen who have yet to experience all this "FUN," have a ball!

## The Many Faces of P.E.

# Mechanical Drawing and Print

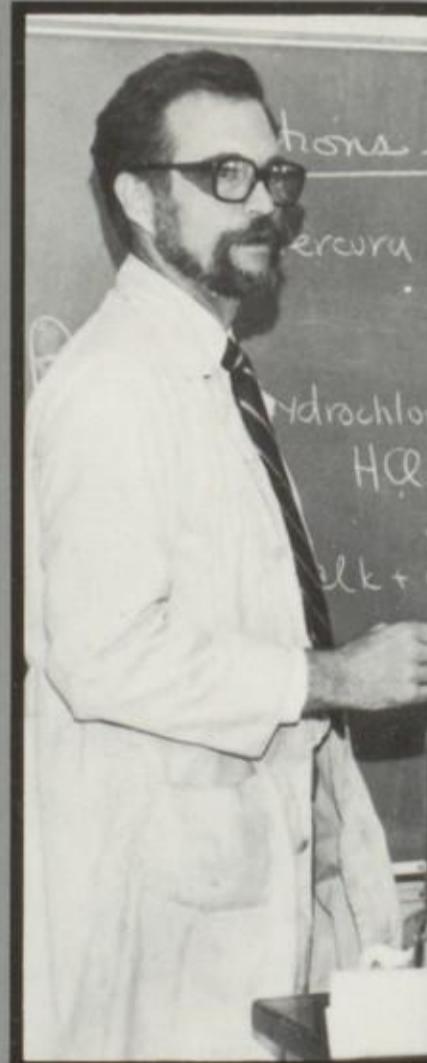

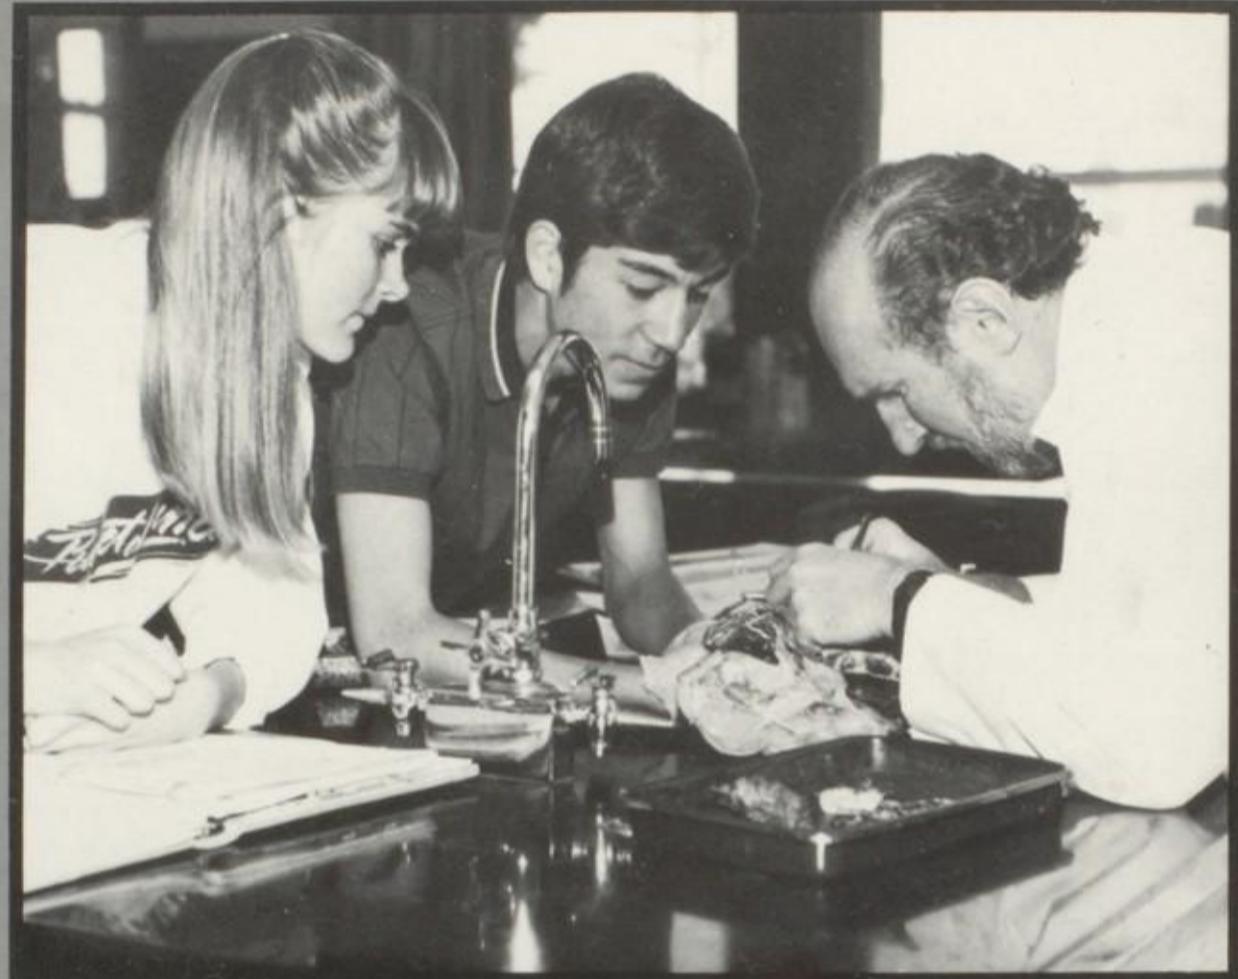

Print Shop is an excellent class for getting hands-on experience, using different printing techniques and designs. The class is responsible for producing things such as The Informer, programs, and other school related hand-outs.

Mechanical Drawing is a preparatory class designed for students interested in different fields of design, by learning the use of drafting equipment and doing practical work in drafting. Advanced students get a chance to apply these skills on Epson computers.

# SCIENCE

Whether it's dissecting mud puppies, balancing equations, counting ladybugs, or measuring millivolts, Albany High is a great place for learning science.

# Expressing Views in Family Life

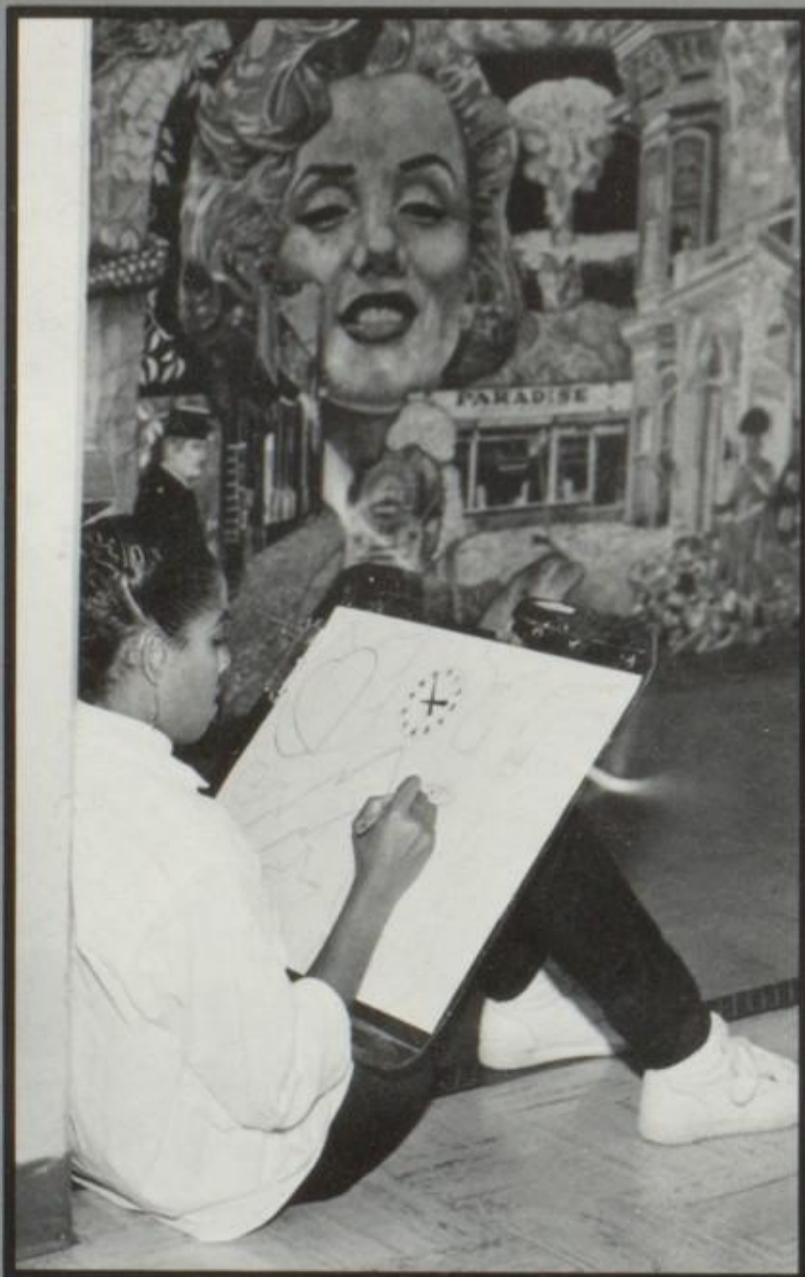

Abortion, death, homosexuality, drug abuse — These are among the topics discussed in Family Life. Mr. Doug Kagawa leads the class, but basically the students add the most depth to the conversations that take place. During the semester, two weeks are devoted to 'egg-care.' Each student receives an egg that he or she is to treat as their own child. Hopefully, they experience what being a parent is all about. This class is designed to help teens deal with the pressures of adolescence.

"It is often easier to fight for one's principles than to live up to them." — Adlai Stevenson

# Artistic Expression

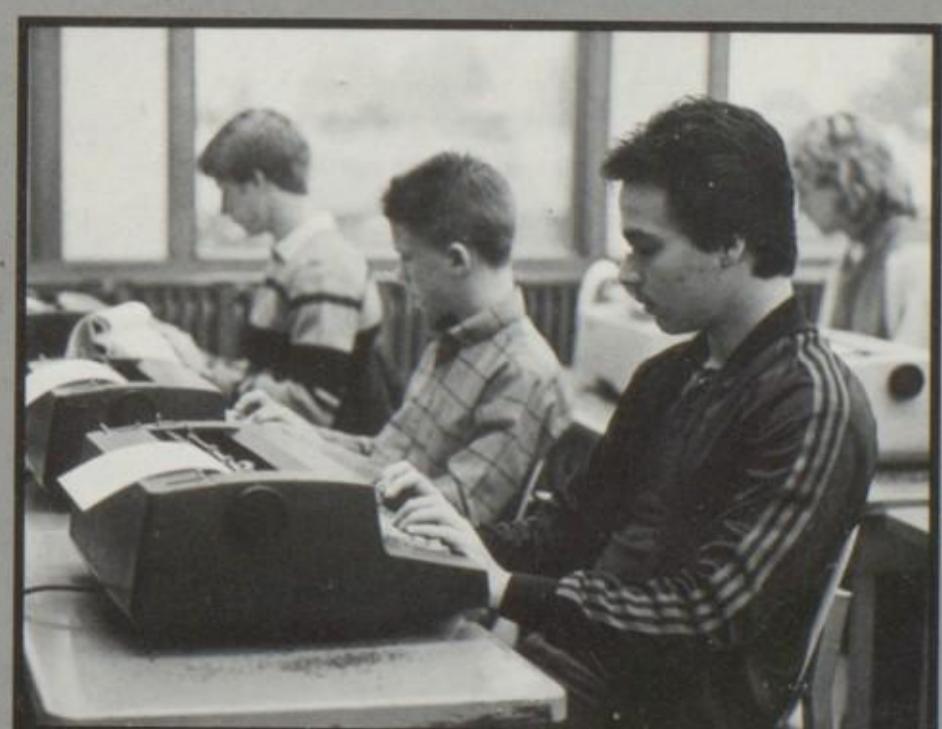

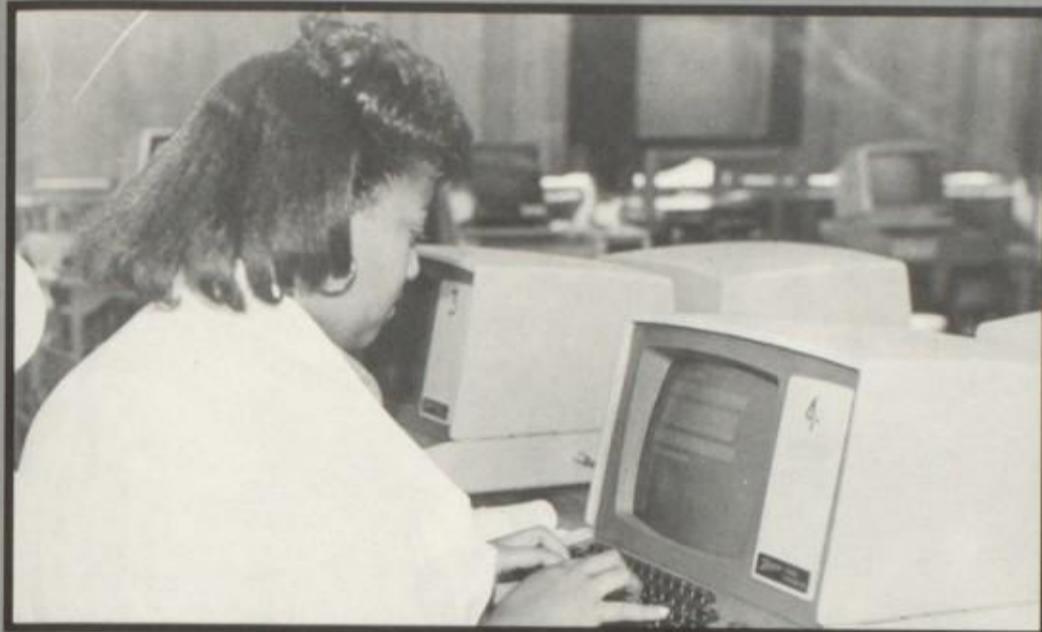

The art classes at Albany High are great places to let your creative ideas run wild. You can draw to your hearts content, paint, sculpt or use a number of other media to create your masterpiece. From calligraphy to clay, the variety of materials that you can use is endless.

The Art Dept. also offers a large choice of classes you can take, including basic and advanced art, ceramics, calligraphy and exploratory art. With a good imagination and a little talent, art can be a really exciting and enjoyable class.

# Computer Programming and Typing

Learning basic skills is important for our future. Computer programming as well as typing will not only help us in college, but on the job, too. Albany High offers a variety of classes for our beginning and advanced students.

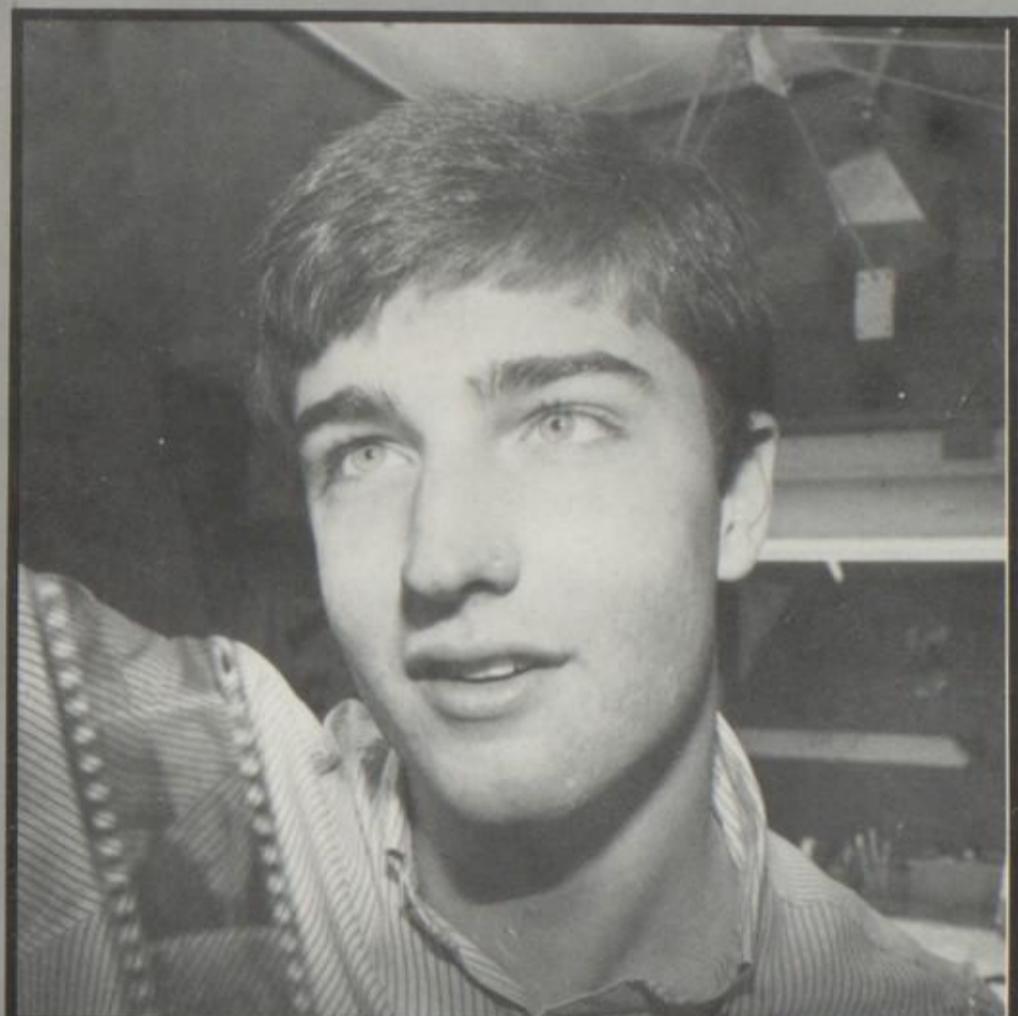

# Global Communications at A.H.S.

The foreign language department went through a lot of changes this year. Wendy Ruebman left to live in Europe. Also, the two advanced classes, 4 & 5 were combined. The annual trip to Mexico, put on by Mr. Cruz, won't take place this year. Instead, Patricia Moore planned a trip to France. Albany High is very grateful to have such generous teachers, who give their time out of school as well as during the day.

# Focusing on Expressions in Photography

Photography is a challenging course full of many options for assignments. Students learn to develop their own film, and produce their own exhilarating pictures. Things such as depth perception, contrasting, and composition are a few of the topics of study.

# Wood and Autoshop

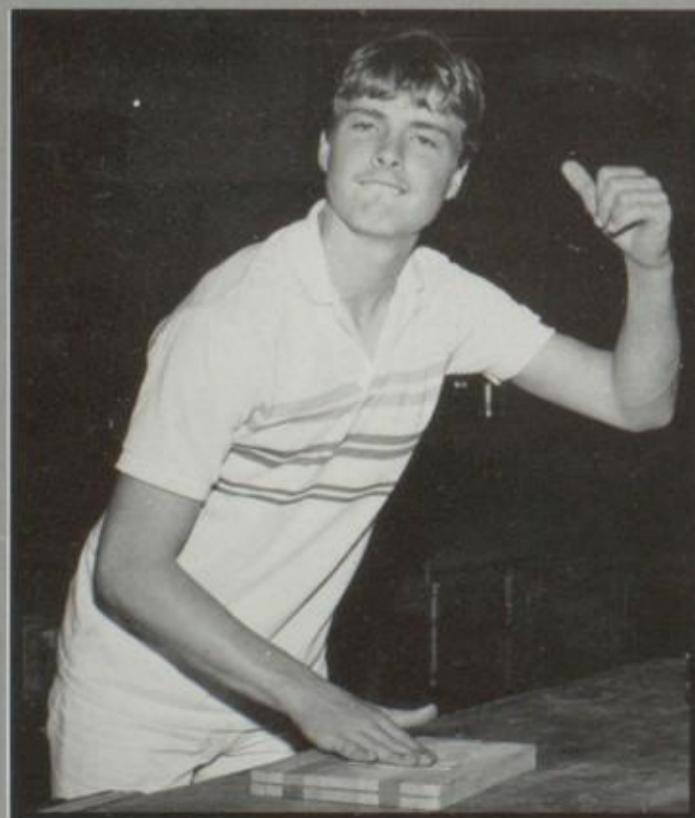

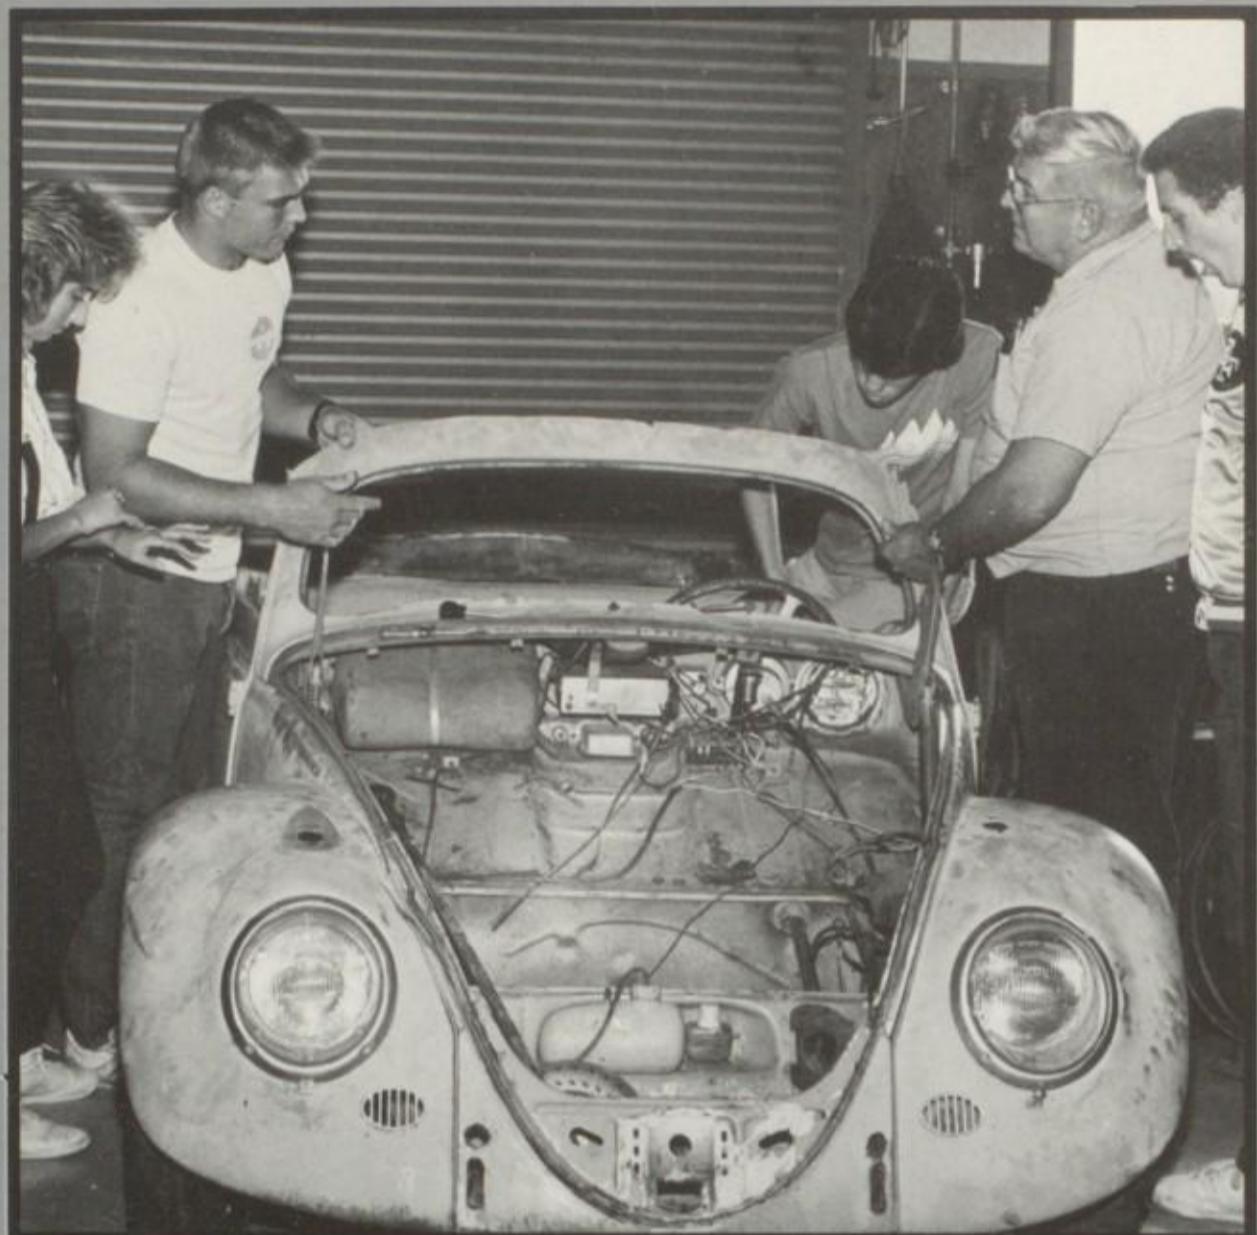

## Expressions in Wood and Steel

Have you ever wanted to build a table or soup up your car? If so, Albany High has the classes for you. Auto and Wood are classes that teach woodworking and car repair. Students in Woodshop make jewelry boxes, tables, and even grandfather clocks, in addition to many other useful objects. Cars are donated to the autoshop for the students to work on and repair. Both classes foster creativity and give students valuable skills that they can use for the rest of their lives.

"You did what to this car?"

## Albany's Board

The Albany Board of Education is an important part of the School District, deciding the school's future policies and controlling finances for the schools.

Trying to find ways to help the schools work can be difficult and because of grave financial difficulties, the Board of Education may be forced to cut back some programs throughout the district. Even with the cuts, A.H.S. will continue to be one of the best schools in the bay area because of the great teachers, administrators and, of course, the students.

# THIRTY-FIVE YEARS OF DEDICATION

Charles Clark  
1952

William Savage  
1953

Ernest Douglas  
1952

The 1986-87 Albany High School Yearbook Staff is cordially dedicating this year's edition to the three teachers who have been at AHS for thirty-five years, Charlie Clark, Bill Savage and Ernie Douglas.

Charlie Clark teaches U.S. History, as he has done exclusively for the past five years in room 111, which he sometimes calls "the blue room." In his thirty-five years teaching here, he has taught eleven different classes in social studies and English. He taught Adult School for ten years, coached many different sports for an average of fourteen years, and has been negotiator and President of the Albany Teachers' Association for several years. Of the more than 15,000 students that he has taught since 1952, he finds the students "*to be the most refreshing and rewarding part of teaching at A.H.S. I don't think there is a high school in the entire bay area that can match the unique characteristics of Albany.*"

Bill Savage has been at Albany for thirty-four years, during which time he has taught Consumer Education, Driver's Education, Mechanical Drawing, 8th grade Social Studies, Physical Education, Math, and Work Experience/Vocational Education. He was the head football and track coach and a counselor for many years. In addition to his involvement at the high school, he has made generous contributions to Albany's community as well. Observing that disrespect for teachers, general irresponsibility and greater drug abuse has risen over the years, he still agrees with Charlie in that, "*the students themselves*" are his favorite part about teaching.

Ernie Douglas began at Albany the same year as Charlie. He's always been involved with Albany High's instrumental-musical activities. His accomplishments include Orchestra Director, Marching Band Director, Concert Band Director, and Jazz Band Director. He is also the supervisor of all of the school district's music groups. According to Ernie, his students are, "*bright and well-behaved, and many of them seem to do a lot of planning for the future. I like 'em!*"

The 1986-87 Yearbook Staff thanks YOU for your thirty-five years of love and dedication to this school and community!

We would like to express our sincere THANKS to

Andrew Hawthorn and Mike Parham, for their contributions to the yearbook.

John Thomsen, for his prompt printing of statements and countless copies, for which we are still awaiting a bill.

Mike Pingree, for burning the midnight oil while printing our color candids, enabling us to meet our first deadline.

Pat O'Gorman, for his prompt service.

David Daly, for his wisdom and expertise, and his good advice during his 'hands on' visits to the class.

Thanks to all the faculty for letting us interrupt your classes occasionally, and for excusing us from classes when yearbook work needed to be done.

Last but not least, THANKS to . . . Bev Wanlin, for donating her time and talents throughout the school year. Thank you for your enthusiasm, your generosity, your stubbornness — without which this book would not be what it is. And thank you for teaching us how to use professional equipment, and then letting us use yours! Thank you for your dedication and hard work in making our yearbook the best ever!

The students did it  
earning no grade.  
The teacher did it  
without being paid.  
  
No camera, nor strobe  
did they have in September,  
using their own  
'til way past December.  
  
As deadlines grew near,  
the anxiety, the fear!  
They'd look at each other  
with, "Why are we here?"  
  
But, the pictures turned out,  
and the writing was fun.  
And the layouts looked good  
when their work was all done.  
  
They're proud of themselves,  
this hard-working eleven,  
to present to you:  
the Cougar '87!
